

FINANCIAL AND COMMERCIAL.

MONEY MARKET.

FRIDAY, FEB. 29—6 P. M.

The announcement of the arrival of the steamship America at Halifax, from Liverpool, with seven days later intelligence from Europe, created quite a sensation in Wall street this morning. All sorts of rumors were afloat, and there was a general rush to sell. It was reported in the street that Consols had fallen two per cent, and that the Bank of England had raised the rate of interest. For a time the bears were in clover, and sold right and left. As soon as the advices were received and circulated, the market took a turn upward. At the board the first and false reports induced prices unfavorably, and the decline was general. Missouri fell 1/2 per cent; Nicaragua Transat, 1/2; Cumberland, 1/2; New York Central, 1/2; Erie, 1/2; Reading, 1/2; Michigan Southern, 1/2; Galena and Chicago, 1/2. Cleveland and Toledo opened at 77 and closed at 78 1/2 per cent, cash, and 79 1/2 buyers 60 days. Illinois Central bonds advanced 1/4 per cent. Between the boards the market was altogether better, and stocks were in demand at the advance. At the second board Cumberland went up 1/4 per cent; New York Central Railroad, 1/2; Erie, 1/2; Reading, 1/2; Galena and Chicago, 1/2; Hudson River, 1/2; Cleveland and Toledo, 1/2. After the board 93 was asked for Reading, 95 for Hudson River, 214 for Nicaragua, 94 for Michigan Central, 924 for New York Central. The market was firm at the close. We shall probably see a higher day to-morrow all round. The news from Europe, by the America at Halifax, is not, so far as we can judge from telegraphic despatches, of an unfavorable character. The decline in Consols was owing to local causes entirely. All the preliminaries for the opening of peace negotiations were progressing finely, and the public mind of Europe has become satisfied that active hostilities will not be renewed. The advance in cotton is a very favorable feature. The decline in breadstuffs is not at all unexpected. The news is on the whole as encouraging as could have been anticipated, and is calculated to strengthen and sustain financial affairs on this side of the Atlantic.

The Importers and Traders Bank was to-day admitted to full standing in the Clearing House. We have not heard of any engagements for specie for shipment by the Atlantic from this port for Liverpool to-morrow.

The operations in the office of the Assistant Treasurer of this port during the month of February, 1856, were as follows:—
